The June figures represent the first month that didn't contain anomalies caused by the 2010 Ash Cloud. A 4.2% (Incl Transit) increase in passengers is at least in the right direction. Movements had a similar increase (+3.3%), but freight reduced by 3.9%. All the terminals showed an increase, but Terminal 3 was the best with a whopping 17.2% increase. The Moving Annual total, including transit passengers, is back above 18.5m for the first time since February 2010
