A reasonably optimistic set of figures. The freight tonnage continue to rise (+15.5%) compared to March 2009. The passenger figures reduce again (-7%), but excluding April 2009 [skewed due to Easter), it is the lowest reduction since September 2008. Terminal 2's decline continues, it is lower than Terminal 1 for the second month in a row. Interestingly Terminal 3 has seen an increase in passenger numbers of 3%! April's figures won't be that good!
